

Oxford tiered benefit solutions – designed for cost savings.

Our New York Oxford¹ portfolio will now include fully insured and self-funded options with a tiered network structure for primary care physician (PCP) and specialist care.² This tiered benefit design may help employers save on medical premiums and members save with low-cost Tier 1 copayments. While members can choose from any provider in their network, seeking care from high-value Tier 1 physicians may result in lower out-of-pocket costs.

New York Oxford tiered network options are paired with our non-gated EPO plans. New York small (1-100) group options are available with the Liberty Network. New York large (101+) group options are available with either the Freedom or Liberty Network. These plans also include access to the UnitedHealthcare Choice Plus national network when traveling outside of the Oxford service area.³

Members can save with Tier 1 providers.
