

Built for better health and lower costs

With UnitedHealthcare Choice Plus, members choose from any provider in the network, including specialists, without a referral or selecting a primary care physician (PCP). Since Choice Plus is a network-based product, members can access care from any of over 1 million network providers.¹ There is coverage outside the Choice Plus network, but members can expect a lower benefit level.

A better value, an easier choice

Finding the best value when searching for a doctor can be challenging. UnitedHealthcare plans offer a simpler solution: When a member chooses a Choice Plus network provider, they're receiving the greatest value from their plan and oftentimes save money. Members simply need to look for a network provider on myuhc.com[®].
