

Say hello to the Preferred Lab benefit.

Add value to your health plan with this Preferred Lab benefit designed to help save your employees money.

Increased value for you. Lower costs for employees.

When you choose the Preferred Lab benefit, your employees can get lab work with no cost-share when they use one of the designated Preferred Lab facilities. In addition to saving money, choosing a Preferred Lab may help save time. That’s more value for lab services—and more value for your employees.

Here are a few examples of average costs for lab services.

Example of Member’s Cost

Current Procedural Terminology (CPT) Description	Preferred Lab	Network Lab
General Health Panel	\$0	\$32
DNA-based Noninvasive Prenatal Test	\$0	\$731
Cystic Fibrosis Prenatal Test	\$0	\$276
Surgical Pathology Examination	\$0	\$151

More to know.

Participating labs are designated in the provider search on myuhc.com®—look for this icon:

Who’s in the PLN?

The Preferred Lab Network (PLN) contains select laboratories that are committed to improving access, quality and service at a lower cost. Participating labs include:

- LabCorp
- Quest Diagnostics
- AmeriPath/DermPath
- BioReference
- GeneDx
- Invitae
- Mayo Clinic Laboratories*

Members with the Preferred Lab benefit will also have access to all network laboratory facilities at a higher cost-share.

Note: Participating PLN providers are subject to change upon annual review process.

Contact your UnitedHealthcare representative for additional information.

*Laboratory services billed by Mayo Clinic and Mayo Health System are not included under the Mayo Clinic Laboratories agreement. Insurance coverage provided by or through UnitedHealthcare Insurance Company or its affiliates. Administrative services provided by United HealthCare Services, Inc. or their affiliates.
